- **Databases :** SQL , MySQL
- **Tools & Platforms :** Git, GitHub, Visual Studio Code, Vercel

PROJECTS

ReportNRepair – Civic Issue Reporting Web App (Frontend Developer) [GitHub link](#)

Built the frontend of a civic issue reporting platform using React, Tailwind CSS, and DaisyUI. Designed responsive, role-based interfaces for citizens, admins, and workers—enabling issue reporting, emergency submissions, and dashboard interactions. Focused on clean UI, smooth navigation, and mobile-friendly layouts.

Personal Portfolio

[GitHub link](#)

Designed and developed a fully responsive personal portfolio using React and Bootstrap to showcase projects, skills, and resume, with smooth navigation and responsive design.

Weatherly – Real-Time Weather App

[GitHub link](#)

Built a responsive weather application that allows users to search for any city and view real-time weather data including temperature, humidity, wind speed, and weather status. Integrated the OpenWeatherMap API to fetch accurate data and styled the app for a clean user experience across devices.
